

Literacy

Non-Chronological reports
using the research into The Titanic and its history. The children will learn to put their ideas into an information report, focusing on language used and presentation.

Story of a Child on a Boat

The children will look at an in depth story focus of 'I was There', a tale following a child's adventures and time on the Titanic. The children will use this text to enrich their writing skills and first person narratives.

PE

Train like a Jedi - we will be following Change for Life's programme to improve children's Jedi skills and then completing 6 challenges
Quick Sticks delivered by Ignite Sports.

History

The children will look at the history of The Titanic looking at its design, launch and sinking. The children will timeline events, of the infamous disaster exploring its class system and luxurious accommodation.

Computing~

This term, the children will be looking into the History of the ship through Purple Mash. Emailing Captain E.J Smith and creating presentations about an in depth focus of their choice.

The Titanic

Term 2 - 2018

Miss Acornley and Miss Mackintosh

Maths

We will be continuing to work through the Year 3 Maths units, whilst also consolidating the children's learning from Year 2. This term we will focus specifically on the following:

- Formal written methods for addition- use the column method
- Formal written methods for subtraction- use the column method
- Introduction to formal written methods for multiplication and division

Science ~ Pushes and Pulls

The children will be looking at different pushes and pulls. They will also be looking at the science behind floating and how the gigantic ship that was the Titanic managed to stay afloat, albeit for a short while!

Art & Design

The children will be designing and making their own room on the Titanic. Shoe Boxes will be needed.

The children will also be designing and making their own item of jewellery, a hat or outfit that would be worn by a first class passenger on The Titanic.

STEM Week

The first week back is STEM week.

This term, the focus is Fashion. The children will designing making and then 'cat walking' their own clothes made out of everyday recyclable items. The children will also be looking at what we can do help save the planet for the future, inspired by David Attenborough in Blue Planet II

RE -

The children will be learning more about Jesus as well as the Christmas Story
