

Langford Village CP School

Year 6 Curriculum Map

Autumn Term 2026

English Children study The Dam, The Highwayman, The Lion and the Unicorn, and Alma to develop advanced reading and writing skills. They explore narrative structure, poetic devices, and character development, producing descriptive writing, balanced arguments, and historical fiction.	Mathematics Pupils will use known facts, patterns and relationships between numbers to calculate efficiently. They will develop their mental calculation skills, recognise mathematical connections and explain their reasoning. We will also explore shape and their properties.	Science Children investigate evolution and inheritance, exploring adaptation, variation, and fossil evidence. They then study electricity, building circuits and understanding components, voltage, and safety. Enquiry skills are developed through prediction, testing, and evaluation.
MFL (Spanish) Pupils will learn to describe their town and local area in Spanish, using vocabulary and phrases to talk about places, give directions and say where things are. They will develop their speaking, listening, reading and writing skills.	PE Children develop skills in handball and tag rugby, focusing on teamwork, strategy, and physical fitness. They practise passing, movement, and game rules, building confidence and coordination.	Computing Children refine coding skills by designing and debugging programs. They learn how to stay safe online and use spreadsheets to organise, calculate, and interpret data, building digital literacy and responsibility.
History Children explore the history of crime and punishment from Roman Britain to the present day. They then study World War II, focusing on its outbreak and the Home Front, using sources and timelines to understand impact and resilience.	Geography Although not a formal focus this term, geographical links are made through WWII studies, including map work, evacuation routes, and the impact of war on landscapes and communities.	PSHE/RSE Through Being Me in My World, children explore identity, responsibilities, and leadership. In Celebrating Difference, they learn to respect individuality, challenge stereotypes, and build inclusive relationships.
Music Children explore dynamics, pitch, and tempo through performance and composition. They study themes and variations, learning to adapt musical ideas and develop structure, expression, and ensemble skills	Art and DT In art, children explore photography and mixed media in Photo Opportunity, expressing ideas through composition and editing. In DT, they design and create textile items inspired by WWII's Make Do and Mend, learning stitching and upcycling techniques.	R.E Pupils will explore what matters most to people and how beliefs, values and experiences can shape the way we live. They will consider different religious and non-religious perspectives and reflect on what matters most to them.
