

You will need a piece of A4-sized paper.

Make a line in the centre by folding the paper in half longways then opening it out flat.

Fold in two of the corners so they meet at the centre fold.

Fold the outer edges in again to meet at the centre fold.

Turn the paper over and then fold it in half in the middle.

Fold down the wings on each side so that they meet with the bottom of the plane.

Your plane is ready to fly! How far can you make it go?
